

Internal Memo

SECRET

13 February 1956

MEMORANDUM FOR: Transportation Division, Planning and Control Staff
SUBJECT: TVA for SR Project ALCARRERA - FI

1. Project ALCARRERA - FI receives administrative support from the Berlin Operations Base. This project has one quasi-personal foreign-make two-door sedan, MV 3813, which is used by the principal contract agent and, occasionally by other persons in the cover organization. The average daily mileage is approximately forty.

2. This vehicle is used by the principal agent to attend operational meetings in the Berlin area. This agent's cover is non-official and is of such a nature that he is exposed to physical danger and possible abduction. For this reason and because of the types of activities in which he is engaged, commercial transportation facilities cannot be utilized. A foreign make vehicle is required because of his cover situation. Station vehicles cannot be used, and station personnel cannot use this vehicle because the agent's cover precludes overt contact with U.S. officials.

3. A complete justification for this vehicle was submitted with the project outline which was approved by the Chief, FI Staff, on 22 June 1955 for the period 1 April 1955 thru 31 March 1956.

4. It is requested that the ALCARRERA TVA be approved and a copy forwarded to SR/Logistics, 1701 J Building.
